

**THE ELJAMEL INQUIRY**  
**SUBMISSIONS ON BEHALF OF**  
**THE UNIVERSITY OF DUNDEE**  
**IN ADVANCE OF**  
**PROCEDURAL HEARING**  
**14 MAY 2026**

[1] The University of Dundee is grateful to Counsel to the Inquiry for his full and informative note of 7<sup>th</sup> May 2026, as are the recognised legal representatives instructed on its behalf. The University acknowledges the challenges which have been faced by the Inquiry in its preparation for full evidential hearings and notes the considerable work which has been undertaken by the Inquiry to make progress in that regard.

[2] As far as planning for the forthcoming hearings in 2026 is concerned (Procedural Hearing Agenda Item 4), the University has provided what is hoped is a thorough and useful contribution to those matters which will be considered by the Inquiry at the Section 1 hearings. Detailed statements have been provided from two witnesses which seek to address in full a range of matters which the Inquiry seeks to explore at those hearings.

[3] Further, a significant volume of documentary material has been identified by the University as potentially relevant to the Inquiry's List of Issues, following extensive searches having been undertaken and thousands of documents perused. The material identified as being potentially relevant is currently in the process of being produced to the Inquiry. The University is fully engaged with the work of the Inquiry and will continue to assist in the provision of information to the Inquiry, should further information be required as matters progress.

[4] The University wishes to offer assurance to the Inquiry of its commitment to assisting the Inquiry in its important work and to acting upon any lessons learned from the findings of the Inquiry in due course. The University re-iterates that it will continue to assist the Inquiry in

whatever way it can, in order for the Inquiry to fulfil its terms of reference thoroughly and expeditiously.
